## KLEA404A SPECIFICATION

| Item                                | R404A                           |
|-------------------------------------|---------------------------------|
| Appearance                          | Clear, colourless liquified gas |
| Purity (% by weight)                | 99.5minimum                     |
| KLEA 125 content % by weight        | 44.0+/-2.0                      |
| KLEA 134a content % by weight       | 4.0+/-2.0                       |
| KLEA 143a content % by weight       | 50.0+/-1.0                      |
| Evaporation Residue (ppm by weight) | 100 maximum                     |
| Water content (ppm by weight)       | 20maximum                       |
| Acidity (ppm by weight)             | 1maximum                        |
| Halides                             | Not detected                    |
| Non-absorbable Gases (% by volume)  | 1.5maximum                      |

### Remarks

The measured composition is that of the liquid phase at ambient temperature.

Transport by ISO container or 1MT Drum

Specification No. JP/K404A/S1  
V100510
